Module 8 – Initiation Prompt Transcript

Welcome to Module 8 Initiation Prompt. This month we clear miasms from our energy centres to restore the frequency of our 5 sheaths to optimal, so that you can integrate all of the EMI teachings that you have moved through in our training so far, embodying the teachings and expanding into who you are becoming.

The Initiation prompt is an invitation to simply drop into a space of allowing and follow along as I call the initiation.

In this initiation we will be working with:

1. Holding each point with the palm of our hand
2. Rays
3. And symbols

You do not consciously need to know anything, I invite you to breathe and release into the process, and know that your subconscious mind has all the information that it requires, to do the healing for you.

As we move through the initiation, I name the energy center, and then invite you to place the palm of your hand on it. I will call in the ray, and the symbol, and infuse it into the energy center, while we hold the intention to clear all miasms from our energy center.

Let's dive in

Taking a few deep breaths
Allowing yourself to arrive in this moment
Bringing your awareness to your heart
The home of your soul
Allowing your breathe to drop into its natural rhythm

Placing the palm of your right hand on your solar plexus energy center now which is located just below your belly button
